To: Winterbourne Parish Council

Dear Tekla

Could you ask the Parish Council to consider the following at their next meeting:

The grass area adjacent to the Glebe Field and opposite the entrance to the Glebe Hall has been totally churned up by cars parking on there. Can it be re-instated and new bollards installed.

The Permissive Path that runs inside the hedge from the Mill Corner roundabout up to the allotments at Winterbourne Gunner is now a muddy, slippery path and not always safe to use. It has needed a weedkill and top up with shingle for some time now. The alternative route is along Downbarn Road, which is equally unsafe, due to volume of traffic.

The pavement leading to the Permissive Path was covered in mud by works lorries parking on the site last year. This is making the pavement very slippery. Could this be cleared on a Community Day?

Many thanks
