Good Afternoon,

Keeping Council playgrounds safe, compliant, and well maintained doesn't have to be time-consuming. Our inspection packages are designed to give councils peace of mind through clear reporting and practical on-site support.

Our Packages

£599 – Essential Inspections

- 3 operational playground inspections
- 1 annual playground inspection
- Full inspection report after each visit
- Quotes provided for any moderate or higher-risk issues

£1,199 – Inspections + Preventative Maintenance

Everything included in the Essential package, plus:

- Replacement of worn moving parts and lubrication during inspections (e.g. D shackles)
- Tightening of bolts while onsite
- Reduced risk of equipment failure between inspections
- Improved equipment lifespan and safer play environments
- Small issues addressed before they become higher-risk or more costly

Additional Service

- Zipwire servicing – £485

After each inspection, you'll receive a clear, easy-to-follow report with costed recommendations, helping you demonstrate due diligence and plan ahead with confidence.

We'd be happy to discuss which package best suits your council's needs.

Kind regards,

Ashley Ford-Hibberd
